TITLE of THESIS

by

Name of Author

Master Thesis in Biological Chemistry

submitted to the

Faculty of Science and Technology

Department of Biology, Chemistry and Environmental Engineering

January 2019

Declaration of Authorship

I, AUTHOR NAME, declare that this thesis titled, 'THESIS TITLE' and the work presented in it are my own. I confirm that:

- This work was done wholly or mainly while in candidature for a research degree at this University.
- Where any part of this thesis has previously been submitted for a degree or any other qualification at this University or any other institution, this has been clearly stated.
- Where I have consulted the published work of others, this is always clearly attributed.
- Where I have quoted from the work of others, the source is always given. With the exception of such quotations, this thesis is entirely my own work.
- I have acknowledged all main sources of help.
- Where the thesis is based on work done by myself jointly with others, I have made clear exactly what was done by others and what I have contributed myself.

“Write a funny quote here.”

If the quote is taken from someone, their name goes here

UNIVERSITY OF STAVANGER

Abstract

Faculty of Science and Technology

Department of Biology, Chemistry and Environmental Engineering

Master Thesis in Biological Chemistry

by Name of Author

The Thesis Abstract is written here (and usually kept to just this page). The page is kept centered vertically so can expand into the blank space above the title too...

Acknowledgements

The acknowledgements and the people to thank go here, don't forget to include your project advisor...

Chapter 1

Introduction

1.1 Section 1 of Introduction

Here goes the introduction, which you can divide into several sections (but need not to do so). You can cite [\[1\]](#) one or several papers [\[2, 3\]](#), which are stored in the `Bibliography.bib` file.

Chapter 2

Materials and Methods

2.1 Experimental Part

Text here....

2.1.1 Method1

Descriptions here, possibly with a figure

FIGURE 2.1: A figure of oxidants

2.2 Theoretical and Computational Part

If there is one....

Chapter 3

RESULTS

Here come the results..... which may be divided into different sections....

To write chemical/biochemical formulas, see the `mhchem` documentation. $A + B \rightleftharpoons C$

$$v_0 = \frac{V_{max} \cdot S}{K_M + S} \quad (3.1)$$

Eq. 3.1 is the Michaelis-Menten equation.

Table, like Table 3.1 are a little more tricky to make, you can use an on-line tool at www.latex-tables.com and then paste the code into your `.tex` file. However, include a label in each table (see `.tex` file for this example) such that you can refer to different tables within the thesis.

TABLE 3.1: Name of the table

b	a	d	e
α	1.23	2.0	3.1
β	no	yes	-
γ	1.0×10^{-3}	5.3	1.4

Chapter 4

Discussion

Discussion can be a separate chapter, but can also be merged together with the results section making a chapter *Results and Discussion*.

Appendix A

An Appendix

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Vivamus at pulvinar nisi. Phasellus hendrerit, diam placerat interdum iaculis, mauris justo cursus risus, in viverra purus eros at ligula. Ut metus justo, consequat a tristique posuere, laoreet nec nibh. Etiam et scelerisque mauris. Phasellus vel massa magna. Ut non neque id tortor pharetra bibendum vitae sit amet nisi.
